# FROM THE CRC

In May 2019 we started an after school football team for the kids at the school. This is a weekly activity that the kids seem to enjoy. The team is proudly sponsored by the Cue CRC, the Shire of Cue and Joyce & Darryl at the Queen of the Murchison. Many thanks to the local police for coaching our kids.

We've had our normal activities like our Craft Group which is a weekly event, Cuppa with a Coppa has started back up as well. Our first Cuppa with A Coppa was awesome with a huge turnout. A huge thank you to the local Police for taking the time outside your busy schedule to have a cuppa with us.

We have also had our Biggest Morning Tea and the amount of interest was amazing with \$565 raised for the Cancer Council. A huge thank you to all the volunteers and to those that dropped off the yummy foods – thanks so much we couldn't have done it without you.

The Sunday Markets were a big hit this month, although we did close early. We had hotdogs, tea, coffee, Kaos Clothing who will be back if they are in the area again, cake stall which sold out (congratulations ladies). I also want to thank those that helped us get the tables over to the park and helped with setup.

I, as the manager at the Cue CRC, would just like to say a big thank you to Jessica Pearce, who generally completes the Dryblower with little to no help from anyone else. Good job, Jess!

We have had a lot of positive comments on the May issue of The Dryblower and lots more suggestions from locals and tourists alike. So, thank you and we'll take all the feedback that has been offered and hopefully make things even better here at the Cue CRC for the community.

*The content of this editorial does in no way reflect the views or opinions of the Shire of Cue, its councillors or any of its staff. Responsibility for the information and views expressed in this editorial lies entirely with the author.*

# NEW MEETING ROOMS AVAILABLE

Cue CRC

The CRC now has 2 conference rooms available to rent, one with video conferencing capabilities. Please contact us at the email or phone number below for more information.

Our new meeting room is now available to hire, it features a 6 seater conference table, white board and air-con, with great views of other historical buildings in Cue. Perfect for meetings, study groups and conferences.

What's a new meeting room without a new waiting room? That's right, we have also included a new waiting room for people that are waiting for appointments.

The new meeting room also features a book display with books we sell that provide information and history on Cue, as well as some travel brochures.

# From the desk of the CEO

It was great to see a good crowd at the Zap Circus Purple People Show, with some people even travelling up from Mount Magnet. The evening started out with a free sausage sizzle, popcorn and drinks, with a total of sixty four people then being entertained by the husband and wife team performing acrobatic stunts, some involving fire. Thankfully the Shire Hall survived the ordeal, as did a few of our locals who were dragged up on stage to be involved in the action.

# From the desk of the CEO

Outdoor exercise equipment has now been installed at the northern end of the town oval in a new public fitness park. Investigations are continuing into the most appropriate soft fall surfacing to use in the area to finish off the project. During summer, shade patterns from surrounding trees will be monitored to determine if any additional shade structures are required.

At their May meeting, Council agreed to allocate \$10,000 in the 2019/20 budget to assist the Meekatharra Rangelands Biosecurity Association with their vermin control activities within the Shire of Cue. This follows a recent successful cull of feral donkeys on pastoral properties and the Cue Common. Council also agreed to allocate \$20,000 in the budget for sponsorship of a movie to be filmed in Cue, based on the true story of two brother's involvement in World War I. Please note that the June Council meeting has been deferred by one week due to the Shire President, Deputy Shire President and myself being in Canberra to attend the Australian Local Government Association National General Assembly. This meeting will now be held on 25 June.

Upcoming events:

- Erth Dinosaurs – Thursday, 22 August.

**Rob Madson**  
Chief Executive Officer, Shire of Cue

Next Council meeting - 6:30pm Tuesday 25 June 2019

## **Traffic**

I will not harp on in this issue of the Dryblower except to reiterate that for Cue Police patrolling up and down the Great Northern Highway and the Shire of Cue area is our bread and butter.

If you speed you will be caught maybe not today or tomorrow but someday. If you drink and drive and secretly stash your transport out of sight, away from prying eyes, ready for your get away, on the belief that the cops aren't on duty, you will get caught, again maybe not today or tomorrow but someday.

Just please have some thought and consideration for other road users and pedestrians and ditch your bad habits before you lose your license or someone gets hurt.

Last but not least, if you are travelling and you feel tired or start the micro yawning stage, stop and have a short break and/or rest. A power nap does wonders for a second wind.

Here was me saying I wouldn't harp on sorry!

## **Crime**

Well done once again you wonderful residents of Cue, for keeping crime down to an almost zero status. For small communities like ours it is so easy for people to take advantage of our good natures, so it is very pleasing to see the town achieving a 'good place to reside vibe' about it.

Again I just want to remind parents that during school term times, school is the place your school age children should be. If they are not, why not and make sure you know where they are and what they are doing?

Again to the detriment of our community, I just want to make comment once more about the pattern of rowdy drunkenness, forming at or near the pub and other parts of town, mostly during shift changeover or RDO's.

Contrary to popular belief we are not the party police and we are not here to enforce a non-happy policy onto people but for god's sake, why do some people have to consume as much alcohol as they can in the allocated 3 hour stint. All on an empty stomach and with no sleep.

There's no gold medal to be won nor is it an Olympic sport so why try. Not the brightest idea in the world and not the greatest look for the town. Those responsible know who you are so please just curb it ok?

## **Community Policing**

I will keep on mentioning it and make no apologies for it but please remember and keep an eye out for your families, friends and neighbors and don't be afraid to ask 'R U Ok'. Mental illness can affect anyone at any time.

Talking about things that can make a person obtain an involuntary twitch or three, I just want to try and establish in my own mind WHAT THE HELL HAPPENED in the final episodes of Game of Thrones.

Can someone out there, who knows the answer, please help by explaining it to me like I am a two year old because currently, I'm at the confused.com stage or maybe my brain is backfiring and the resulting smoke and sparks are just not comprehending what my eyes and ears have witnessed?

The last time I was left this unsatisfied is when I went to my fridge to get a beer after a long day only to find I had ran out and the shops were closed or when you go for a nice piece of chocolate only to remember that too disappeared the previous night watching said Game of Thrones!

Just a heads up that there are some nice people who show up and partake of a nice game of Social Bowls on a Sunday arvo from 1pm. I can vouch that it is very enjoyable and a good way to learn from some great bowlers. Come give it a try if you're thinking of something to do on Sunday.

It is good to see the caravan park looking so full and pleasing for us that there have been little or no issues noted.

Again please don't get complacent and please be mindful of your property, wherever you choose to camp and secure your items as best you can and make it bloody hard for the would be thieves.

Thanks again to the Shire for ensuring the town on occasion get some entertainment in as it's always much appreciated.

As usual please stay safe, play safe, drive safe and be a good neighbour.

## **Quote of the month**

"Before you judge a person, walk a mile in their shoes. After that who cares? They're a mile away and you've still got their shoes!"

Senior Constable Martin REID  
Cue Police Station.

# From Our LOCAL BUSINESSES

## **TWO YEARS ON**

### **Guest Comments**

**“WELCOMES YOU  
WITH OPEN ARMS  
AND EVEN COOK  
HOMEMADE  
MEALS”**

**“DARRYL & JOYCE  
ARE GOOD HOSTS  
AND THE BUILDING  
IS FULL OF  
HISTORY”**

**“DEFINITELY OUR  
BEST  
ACCOMMODATION  
ON OUR ONE MONTH  
ROAD TRIP”**

1st of June 2019 marks the second anniversary of Darryl & Joyce Penny taking over as owners of the Queen of the Murchison Guest House and Café. Since then, they have been quite busy painting almost all common areas, all ground floor bedrooms, and all but 7 of the upstairs bedrooms. Help has been generously given by a local and Perth guests who wanted to do something to give life to one of the bedrooms and the dining room. Many people say it all looks great and we are looking forward to the day we can say that the painting is finished!

All beds have been replaced, as has the bedding, guest lounge furniture, curtains and all roof-mounted air-conditioning units. The kitchen has seen a new gas stove, pizza oven, grill and 2 large fryers installed making life easier for large event and single burger cooking.

Guests have included a film crew of over 40 people, a road crew of over 20 and hundreds of couples, families and workers involved in all sorts of work, but often connected to the mining industry. We've introduced a web-site where guests can book their own room and see what to do in Cue and the district .

We've done a lot of press and magazine advertising and recently sponsored the Karijini Experience through Red-FM. We have been told that many people from all over the State have heard our ads, which is great for us and Cue.

We look forward to your continued support, as without you, all we have is an interesting building, rather than a thriving business.

# About our Town

## THE MUNICIPAL CHAMBERS

The old Municipal Chambers building located at 33 Robinson St, Cue was opened in September 1896. The first meeting held at the Municipal Chambers was without furniture. The historical building previously housed the Cue CRC back in 2017 but is now the WestGold Mining company office since 2018.

The Building was designed by Mr Alfred Cox, a government architect based in Cue from 1895 to 1905. Mr Cox also designed several other buildings such as the Murchison Club Hotel and the Old Post Office building located on 72 Austin St, Cue.

### DESCRIPTION

The building features two arched windows either side of an arched entry foyer with a parapet wall to the front façade. The entrance is via stairs and symmetrically positioned between the two windows.

A single story rendered weathered granite building in the Federation Free Classical style. With a corrugated iron roof and a timber veranda located on the north west of the building.

# SCOOP THE POOP

## ATTENTION ALL PET OWNER'S

Just a friendly reminder to please pick up after your pets. It has come to our attention that people have been walking their dogs around the Town Oval and have not been cleaning up after their furry friends. Picking up your pet's waste is important. Besides being unsightly and smelly, it can be hazardous to the health of the children who play there and also other pets.

By taking a few simple steps to clean up after your pet, you are contributing to the beautification of our community, but also eliminating an irritating nuisance.

So please be courteous to other community members by cleaning up after your pet. It's not cool to leave us stool.

The Shire have provided Dog Waste Bag Dispensers which can be found on the gates as you enter the Oval on your left and right hand side. There are also bins provided, so you can dispose of the unwanted mess.

Please keep in mind that the penalty for failing to pick up after your pet is a \$200 fine.

Thank you for your co-operation!

# CUPPA WITH A COPPA

We would like to  
invite you to  
have a cuppa  
with a coppa on  
Wednesday 19th  
June at 10am

*Tea, Coffee  
& Snacks  
Provided.*

# KEEP UPTO DATE

## EVENTS & NEWS FOR MAY 2019

### **BIGGEST MORNING TEA**

The Biggest Morning Tea was a huge success, lots of people attended and donated money and food for an excellent cause. We raised a massive \$565 and we're extremely proud of that total for such a small community.

Congratulations to the prize winners, as you can see Rob is extremely happy with his new shoe hand bag. June from the caravan park won the \$50 prize and Geoffrey from the school won the raffle prize.

### **Q-KICK**

With the generous sponsorship of the Shire of Cue & The Queen of the Murchison the Cue CRC has started a weekly football event for the kids at the Cue Primary School. We would also like to thank our local police who have been there every week coaching. We only started it at the beginning of May and so far the kids seem to love it and so do the bigger kids (teaches and school staff).

### **SUNDAY MARKETS**

The Sunday markets in May was a great turn out, we had some great new stalls with great items. Thank you to everyone that volunteered, without your help it wouldn't have been such a successful turnout.

Hopefully we will have some more great stalls available next month for our June markets.

In the meantime, we appreciate any positive feedback regarding our events.

### **CUPPA WITH A COPPA**

A big well done goes to the manager Julie Humphreys for organising the event and also to the lovely ladies from craft group. Without your help and generous donations of yummy food, the event wouldn't be as successful. Last but not least, what would be a Cuppa with a Coppa without the Coppa? Thank you Cue local police for taking the time out of their busy schedule to come in and speaking with some of our locals. It was great seeing so many smiling faces. Well done everyone!

# KEEP UPTO DATE

MAY PHOTO COMP WINNER

## CONGRATULATIONS MATTY SIMPSON

Matty sent in this eye catching sunset from around Cue. as you can see Cue's sunsets are like no other.

Thank you to everyone that sent photos in for the photo competition, they all capture the beauty of our town and that's exactly what we were after. Hopefully we have more people enter next time, in the meantime we appreciate the great photos everyone has sent through previously. Its great to see more people are getting involved with the Dryblower. If you have any photos you would like published please send them through and we will include them in our Dryblower editions.

Thanks to Boink for sending in this great photo of a gorgeous rainbow towering over our little town.

## Notice of Change of Date Ordinary Council Meeting

Please be advised the Ordinary Council Meeting previously scheduled to be held at 6.30pm, Tuesday 18 June 2019 will now be held at 6.30pm, Tuesday 25 June 2019.

Rob Madson  
Chief Executive Officer

# Improving water quality in the Murchison

Water Corporation is planning to build 4 water treatment plants in Mount Magnet, Cue, Sandstone and Meekatharra to improve water quality in the Murchison region.

The water treatment plants will use a desalination process called electro-dialysis reversal (EDR). EDR technology has been successfully used in regional towns across Australia to improve water quality conditions, reduce nitrate levels and convert over 90% of the treated water into drinking water. It is currently used at the Wiluna and Yalgoo water treatment plants in the Murchison region.

## May 2019 update

We are working with our authorised contractor, Guidera O'Connor to progress the design of the 4 treatment plants and expect to begin construction of the first plant in late 2019.

### Recent milestones

In recent weeks, we have finalised land and power requirements for each site and can now progress through final approvals and consultation with land owners.

The proposed plant designs will be sent to the relevant Shire for comment from mid 2019 in line with the construction schedule.

### Construction schedule

We will build each water treatment plant in stages and expect all plants to be operational by early 2021. This schedule has been determined by each town's specific plant requirements and available power supply.

1. Mount Magnet plant construction to begin in late 2019
2. Cue plant construction to begin in late 2019
3. Sandstone plant construction to begin across two sites in early 2020
4. Meekatharra plant construction to begin in early/mid 2020

### How we will power the water treatment plants

Existing Water Corporation assets on the water treatment plant sites will continue to operate using grid power.

As part of our commitment to improved sustainability, solar power and batteries will be installed at the Mount Magnet, Cue and Meekatharra sites. This will minimise the amount of additional grid power required to run the new water treatment plants, including the EDR technology.

A diesel generator will be installed at all sites for additional power support.

Sandstone will also receive two new 200kL water storage tanks and a booster pump station to improve their water storage. As this site is the smallest, solar power and batteries will not be required to power the Sandstone plant, which will use grid power and a diesel generator when required.

## Find out more about this project

**HON ROBIN SCOTT MLC  
OF KALGOORLIE-BOULDER  
Member for Mining and Pastoral**

At the age of sixteen Robin Scott came from Scotland with his parents to Western Australia, where he enrolled as an apprentice electrician. Immensely proud of his trade, Robin has worked for more than 30 years as an electrical contractor to the WA mining industry, especially the Goldfields. Flying himself and his staff to electrical contracting assignments, Robin logged 4,000 hours in his Rockwell Commander, the aircraft he now uses to service his constituents in the vast

Mining and Pastoral Region.

Robin is an enthusiastic campaigner for job opportunities through creating more apprenticeships for young men and young women. The Federal Government has partially embraced the Pauline Hanson's One Nation Policy of subsidising apprentice wages 75% in the first year, 50% in the second and 25% in the third year.

Robin Scott moved the Disallowance Motion which defeated the Government's attempt to increase the Gold Royalty by 50%. Robin is determined to protect and promote mining and led the defence against water charges for prospectors and small miners.

Robin's priorities for 2019 include:

- Water pipeline south from the Kimberley
- Supply good clean water for all regional people
- Sealing the Wiluna-Meekatharra Road
- Insist on rapid delivery of the promised MRI machine for Kalgoorlie
- Big upgrade for palliative care in the regions
- Aged care facility for Leonora
- New hospital for Laverton
- New hospital for Meekatharra
- Ensure the Nursing posts are manned by more than one nurse and are secure and safe for staff
- Abolish fringe benefit tax to encourage FIFO workers to live locally
- Speed up dog fencing and increase the number of professional doggers
- More jobs through quicker approvals for mines

## Find Cancer Early

### New Website for Regional People

The Find Cancer Early website aims to improve regional cancer survival outcomes as research shows outcomes for regional Western Australians are 20-30% worse than those living in a metropolitan area. **We know that people are more likely to survive cancer if it's found early. We also believe your postcode should not define your cancer outcome.**

The website has been designed to improve regional Western Australian's understanding of the early symptoms of prostate, breast, skin, bowel and lung cancer and encourage them to report any unusual changes in their body to their doctor, clinic nurse or Aboriginal health worker early.

Learn more about early cancer symptoms at [www.findcancerearly.com.au/cancer-symptoms/](http://www.findcancerearly.com.au/cancer-symptoms/)

### Harnessing the Power of Personal Stories

The stories and advice of regional champions who have experienced a prostate, breast, skin, bowel or lung cancer diagnosis has been gathered to help motivate people to Find Cancer Early.

Learn from Find Cancer Early champions or share your story here:

[www.findcancerearly.com.au/local-stories/](http://www.findcancerearly.com.au/local-stories/)

# NEW GYM EQUIPMENT

**FITNESS IS LIKE  
LIFE, THE HARDER  
IT GETS THE  
STRONGER YOU  
BECOME**

Thanks to the generous donation from the Shire of Cue, we now have a community gym open to the public. If you're bored at home or would like to work on your fitness, we encourage people to come down and give the equipment a go. The new gym is located near the Old Railway Station at the town oval.

## **Equipment Includes:**

**Exercise bikes  
Chin up bars  
Leg press machine  
Chest press machine  
Skywalker  
Cross trainer  
Rowing machine**

## **PUBLIC COMMENTS**

**"ITS SO EASY TO USE,  
AND IN A GREAT SPOT"**

**"IVE HEARD SOME  
GREAT THINGS ABOUT  
THE NEW GYM AND I  
CAN SEE WHY"**

FOOD, DRINKS & BARGAIN BUYS

or email [cue@crc.net.au](mailto:cue@crc.net.au)

# Nallan Station

## LIVING ON A STATION

By Kyle

My name is Kyle and I am 8 years old and I live on Nallan Station with my family. I love living on a Station because you can ride a motorbike, ride a horse, play with your dogs, go out to Nallan Lake and ski. We have pigs, sheep, horses, chooks and cows we also have caves and gold somewhere. We have calves, bulls, and parrots. We also have lovely rooms and accommodations for when you want to stay. You can find some gold perhaps. We also have donkeys that can't walk straight, the horses here love pats but please shut the gate so you can pat them. They love grass and hay.

I get home schooled until 12.30 every day, then I feed the chooks and move the solar panel that runs our water pump. We have 1 gelding called Clancy he loves carrots, apples and bananas, he loves kids patting him and he also loves kids patting him on the forehead. We also have 2 mares called Megan and Tantrum. Sometimes after I do the solar panel I like to go for a pushbike ride to the laydown area, this is where we store all of the spare parts for different projects. We try to recycle as much as we can on Nallan Station. I like helping Mum and Dad with the cattle. I often get to ride my 110 motor bike when we move the cattle. I also help when we weigh the cattle.

Thank you for reading my story.

Kyle  
22/5/19

# Nallan Station

## *Living on a Station*

By Mia

My name is Mia and I am ten years old. I live on Nallan Station, with my Mum, Jacko, Nan (Marsie), Grandpa, Shelley (my governess), Steve and my brother Kyle. My favourite thing about living on a Station is being able to have the freedom of being able to drive, catch the horses and go for a ride. Playing with the Corgis is a lot of fun. (If you don't want to get hair all over you don't play with them.) On Nallan Station you can see cows, sheep, goats and for some reason we have 5 silly donkeys that can't run straight.

We also have Accommodation. You have got a choice staying in the cottage, newly renovated Quarters or you can stay in your camper. There are newly renovated toilets and showers even a washing machine and clothes line.

There is a Self Check in box when we are not around. If you want to know a bit about living on a Station you can call us a couple of days before you plan to arrive and I could tell you a little bit about bonding with your horse, and if you are lucky we might have some cattle in the yards so you can learn a little bit about cattle as well.

We have 2 calves call Rosie and Eve, you're welcome to go say hello to them, you will see their names on their ear tags. My horse's name is Tantrum and my brother's horse is called Megan and Jacko's horse is called Clancy.

Sometimes we come to greet you with our fresh chook eggs or you could collect them from the chook house with one of us. For a limited time only you can go down to the Nallan Lake for a swim or you can just have a look.

We do home School, we start 8.30 and finish at 12.30. I do Piano Lessons for half an hour every Monday and Tuesday, via the telephone. Living on a Station is a lot of fun, you can do pretty much anything.

Thank you for reading my story.

By Mia

Department of  
Transport

## DoT Remote Services will be visiting CUE

**When:** 17th June 2019 1.00pm - 3.00pm

**Where:** Community Resource Centre

### We will be able to help you with the following services:

- theory test
- photo card applications
- driver's licence applications
- change of address
- registration and driver's licence renewals
- vehicle transfers
- return of vehicle plates
- driving assessments

To enable us to help you, please ensure you bring your birth certificate, Medicare card, bank card and two types of proof of residency, along with cash or card for payment.

**For enquiries please call:** Karen 92168194

### Sometimes quicker is better with **DoT Direct**

Whether you're renewing your licence, transferring vehicle ownership or checking your demerit points, **DoT Direct** is quick and easy to use wherever you are.

# Looking Back on Cue

- June 1895

## Looking back on Cue - *June 1895*

Faiz and Tagh Mahomet had already set up a store in Cue and were advertising their services and their stores to the people of Cue. This pair of brothers were renown across the goldfields of Western Australia for their cameleers and their ability to transport goods faster and more reliably than some of the teamsters were able to. They were one of the first to set up shop on Austin St.

The first blocks of land has already been sold with the declaration of the municipality of Cue in 1894, however more were to be sold in Austin St, as advertised by the local Architect.

A court case in Cue saw an agent arrested for the sale of whisky in breach of the Licensing Act. The person who sold him the whisky was a licensed dealer, and the person he sold the whisky to was a licensed seller, he was merely the go between. He has seen the item only as goods to be sold, and, in the words of his honour "the law is an ass". Rightly so, it seems, as the gentleman in question was acquitted.

Lake Darlot brought bad news that nearly 1500 men were there by Christmas last and there were between 500 and 600 dryblowing machines working, but results achieved were very small, suggesting that the known patches of alluvial had been hard worked by the men seeking their fortune.

Typhoid was running rampant in town, with 31 cases at the hospital.

The schoolmaster was struck down with it as well, requiring someone to attend in Cue to the school.

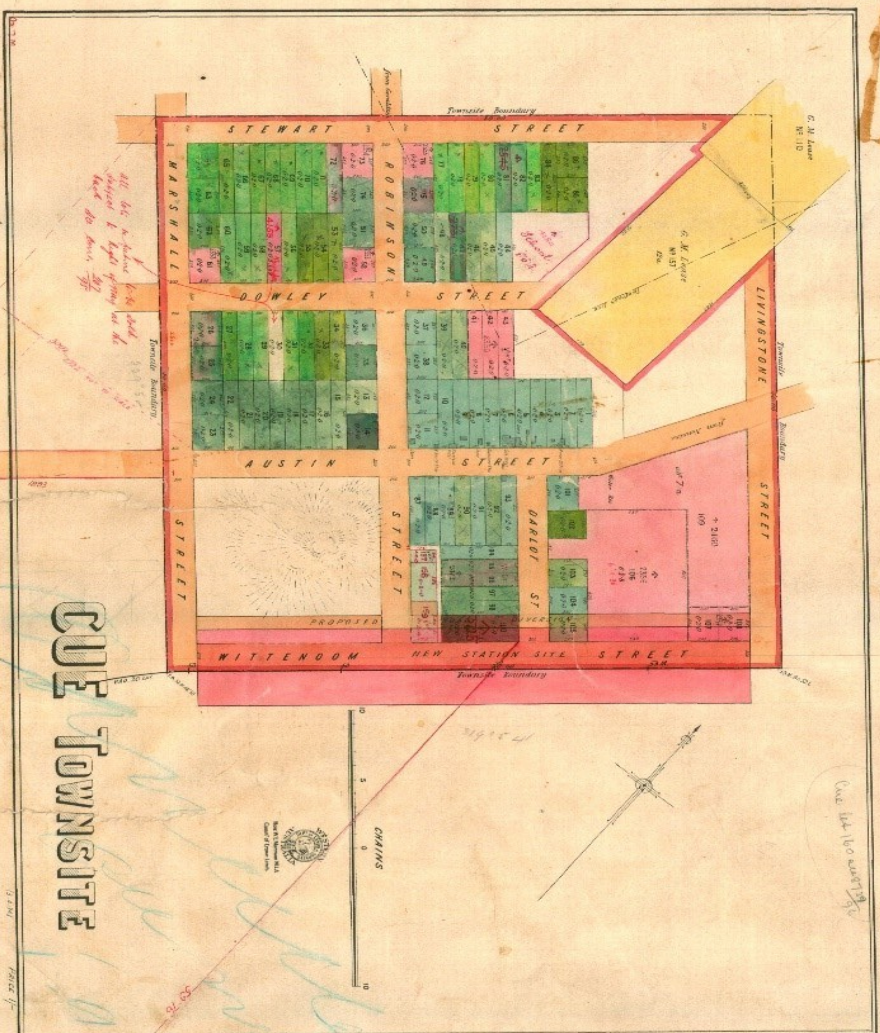

Heavy rains fell through Cue during this month, with the Lady Mary mine having 18 feet of water down the shaft. A new pump had to be put down the shaft to make it workable again. Nine inches in 30 hours were recorded in some parts.

The local football teams played through the month, with Kinsella and Day Dawn trying their might against Cue.

There was a crowded house at the Miners Institute for a minstrel and a variety show (given there was no theatre in Cue, people must have enjoyed whatever entertainment could be found).

Gold returned to the Mint for the Murchison Goldfield was 65,477 oz. for 1895, with 15,434oz coming from alluvials and 50,043oz from quartz crushing's! In today's money, that's 2,029 kilos of gold, or around 121 million dollars in value.

St John

## Did you Know?

All over W.A., over 4500 St John volunteers donate more than three million hours to the community every year. From running the ambulance service to teaching first aid in hundreds of locations around regional W.A. - each and every one of our staff and volunteers are providing lifesaving aid, and helping life in W.A. go on.

Sadly this ambition is becoming more and more difficult to achieve for the St. John Sub Branch in Cue due to one simple fact, a lack of volunteers to the point that on many days or nights we simply do not have people to respond to an emergency call for an ambulance in Cue or its surroundings.

Obviously such a situation could result in a potential tragedy, one which we who are currently in St John are desperate to avoid and the very reason we are appealing for more volunteers.

## Your community needs you

No matter what you do, or what you've learned along the way, you can make an incredible difference to your community by becoming a St John volunteer. With St John, you'll learn new skills like endorsed first aid qualifications, build strong relationships with new people you meet, and work with emergency services to make a real contribution to your community. You'll also receive a range of fantastic benefits.

When you volunteer with St John, you'll be part of the welcoming team that's changing lives.

And the first life that will change is yours.

We look after you so you can look after others

When our people perform at their best, our team performs at its best. That's why we've developed a culture based on passion, professionalism and team spirit, where every member of the team feels welcome and feels valued.

St John

*For the Service of Humanity*

If you've been wondering how to make a difference with your life, your time is the most valuable thing you can donate. For more information give Ian a call on 0418382303 at the Cue Sub Branch

# Creamy Garlic Prawns and Rice.

## Ingredients

- 25g butter
- 1 tablespoon olive oil
- 2 cloves garlic, crushed
- 1 tablespoon flour
- 1/2 cup cream
- 750g peeled uncooked prawns
- 1 tablespoon chopped fresh parsley
- salt to season

## Method

Step 1: Heat butter, oil and garlic in a medium frying pan over medium-high heat until butter has melted. Add flour. cook, stirring for 1 minute or until mixture bubbles

Step 2: Add cream, cook stirring for 3 minutes or until sauce boils and thickens. season with salt and pepper.

Step 3: Add prawns. Simmer, stirring for 3 minutes or until prawns are cooked through. Stir in Parsley. Serve creamy garlic prawns with steamed rice.

# Donut Recipe

## Ingredients

- 1 cup plain flour
  - 1 teaspoon baking powder
  - 1/4 teaspoon baking soda
  - 1/2 teaspoon ground cinnamon
  - 1/3 cup unsalted butter
  - 1/3 cup caster sugar
  - 1 teaspoon vanilla extract
  - 1 large egg
  - 1/3 cup milk.
- (Cinnamon Sugar Topping.)
- 1/4 cup unsalted butter
  - 1/4 cup catser sugar
  - 1 1/2 teaspoons ground cinnamon

## method

1. Preheat oven to 180C. Lightly grease 9-hole donut pan
2. In a large mixing bowl, sift flour, baking powder, baking soda and cinnamon. In a seperate bowl beat the butter, sugar and vanilla with an electric mixer for 1-2 minutes until combined. Add egg and beat again.
3. Add half the flour mixture and half the milk and gently stir. Before adding the remaining flour and milk.
4. Spoon the donut mixture into each hole of the donut pan. Place in the oven and bake for 10 minutes.
5. Meanwhile, combine the sugar, cinnamon in a bowl and melt the butter. Once the donuts are ready, gently transfer to wire rack. Using a pastry brush, brush each donut. One at a time, with butter and then generously coat with cinnamon sugar.
